

LOG SHEETS

Carbon Monoxide (CO) Detector Test Log

Villa Name:	
Resort:	

Detector Location eg. First floor, basement, annexe etc. (use a separate log sheet for each individual detector)	

[illegible]

- Press and hold the 'TEST' button on individual battery operated CO detectors NB There is often a short delay between pressing the test button and the alarm activating. Some detectors will require the 'RESET' button to be pressed following a test.
